Memorandum for:

Attached hereto is the Record of yesterday's debate on the Mansfield Resolution which the Director may want to read over the weekend.

There is one exchange that I did not brief him on yesterday because I was out of the room at the time it occurred. It is an exchange between Senators Knowland and McCarthy (pages 5425 and 5426) on the question of Communist infiltration in CIA, etc. The Director will note from the record that Mr. Knowland handled the matter of referral of McCarthy's "classified report" in a very satisfactory manner.
